CONFIDENTIAL

Journal - Office of Legislative Counsel  
Tuesday - 5 June 1962

Page 2

25X1 3. [redacted] Met with William Darden, Senate Armed Services Committee, and gave him a copy of the Winter 1962 issue of Studies in Intelligence mentioning the article "Target: CIA," with the suggestion that this might be a topic for discussion at one of our forthcoming meetings. Briefed Mr. Darden on S. 3252, amending the Communications Act and outlined our part in this. Mr. Darden stated he did not believe it necessary to brief the Chairman at this point but if we had any difficulty he was sure Senator Russell would be pleased to assist.

25X1 4. [redacted] called to say that a source of that office has indicated to them that Chairman Miller and Representative Fulton, of the House Science Committee are trying to establish a Committee position disputing the fact that Soviet cosmonauts Gagarin and Titev did not actually fly in the Soviet capsules which orbited the earth. Sheridan was merely passing this information on to us.

25X1 5. [redacted]

25X1 6. [redacted] Met with Stephen Horn, in the office of Senator Thomas H. Kuchel, and returned to him the brochure prepared by Jan Otoniewski having to do with foreign radio broadcasts. Senator Kuchel had forwarded Otoniewski's material on the chance that it might be of some interest although he recognized that this was something which would be of primary interest to USIA. I advised Horn that following his reply to the Senator, Mr. McCone referred this material to appropriate people here. They have reviewed it carefully and determined it was of no intelligence interest. Horn thanked me for our attention to this and indicated the Senator was in no way pushing Otoniewski or his proposals.
